

GIRLS ON THE RUN LIMITLESS POTENTIAL BREAKFAST

- ★ Studies show that girls' confidence peaks at age 9, falling at 3.5 times the rate of boys, reaching its lowest point in 9th grade.
- ★ Girls who lack confidence become women who lack confidence. Close to 80% of women struggle with low self-esteem compared to 59% of men. Four in five women may be held back in their career advancement as a result.
- ★ Girls on the Run believes girls are full of power and potential. Given opportunities to learn and practice key skills, with the guidance of trained mentors, we connect girls to their limitless potential so that they can be the changemakers driving progress in their communities, building a stronger and kinder community for everyone. Girls on the Run and our partners invest in girls so they are equipped to lead and shape our future.
